

# Printgraph™

## Features

The *Printgraph -210* machine is mainly used for full automatic envelope & red packet forming machine is a kind of processing advantages of advanced technologies from abroad and also It is characterized by an air-suction paper drawing system, automatic devices for creasing, gluing, folding, counting and delivery, reasonable structural design, stable performance, efficient mass production and very easy debugging for it.

Model	<i>Printgraph-210</i>
Applicable sheet gsm	70-120gsm
Size of finished product	126X260 - 50X60mm
Working Speed	18000pcs/h
Total Machine Power	4.5kw
Machine weight	1000kg
Machine dimension	2000X850X1500mm

## *Printgraph* Fully Automatic Envelope & Red Packet Forming Machine

# Printgraph™

## Fully Automatic Top Open Envelope Making Machine

## *Printgraph* Hydraulic Die Cutting Machine

## Features

The *Printgraph-170, 170A* machine is mainly used for cutting the ground paper of various envelopes also applicable for other materials. This equipment has a powerful die cutting pressure with accurate positioning fine adjustment and full-automatic ejecting units, highly efficient, labor-saving and stable in production; provided with automatic arresting gear and four-column stable structure ensuring the stable performance and safe operation of equipment during production.

Model	<i>Printgraph-170</i>	<i>Printgraph-170A</i>
Effective running size for standard board	820X520mm	1250X700mm
The Pressure of die cutting	12t	35t
The Pressure of Oil pump	8mpa	21mpa
Total Machine Power	3kw	3kw
Machine weight	1100kg	2000kg
Machine dimension	1300X900X1500mm	2000X1250X1600mm

## Machine Introduction

*Printgraph-820, 820A* Fully Automatic Top Open Envelope Machine is kind of advanced domestic automatic processing Machine special for the normal top open envelope and the similar paper bag., which was successfully developed by our company for many years research and development, introducing the foreign advanced technology and combining the domestic industrial features. The structure is more reasonable, high precision, easy operation, easy maintenance, it can also ensure stable performance during mass production when compared with other model.

Model	<i>Printgraph-820</i>	<i>Printgraph-820A</i>
Applicable sheet gsm	70-150gsm	70-150gsm
Maximum Working Speed	10000pcs/h	8000pcs/h
Maximum size of finished product	250X360mm	360X460mm
Minimum size of finished product	100x200mm	120x220mm
Motor Power	2.2kw	3kw
Air pump power	3kw	5.5kw
Machine weight	1600kg	2200kg
Machine dimension	2900X1100X1600mm	3200X1250X1600mm

## Printgraph Fully Automatic Multi-Functional Envelope & Paper Bag Making Machine

### Machine Introduction

*Printgraph-398* Fully Automatic Indian & Western Envelop Making machine is the most advanced envelope processing equipment currently at home. Which was successfully developed by our company introducing the foreign advanced technology and combining the domestic industrial features. The fine adjustment and other parts, is carefully designed by our technicians. Therefore, that has ensured to achieve the advantages of high efficiency, stable performance, easy operation, etc. during the mass production.

### Main Structural features

Reliable sheet separation of the air-suction bottom feeding system with automatic feeding of non-stop operation of the machine; easy regulation of the positioning structure of paper with accurate positioning; ensuring the creasing under the high speed running of the machine; rotary sizing applicable for any forms of glue lines; provided with the folder for the suction roller for the stable production in a high speed state; visible and accurate regulation of the dial under the condition of fine adjustment; mounted with electric counter and automatic delivery unit on the collecting part.

Model	<i>Printgraph-388</i>	<i>Printgraph-398</i>	<i>Printgraph-408</i>
Applicable sheet gsm	70-150g/gsm	70-150g/gsm	70-150g/gsm
Working Speed	3000-10000pcs/h	3000-10000pcs/h	3000-10000pcs/h
Maximum size of finished product	230X160 230X160	324X229 324X229	380X280 380X280
Minimum size of finished product	85x85mm	85x85mm	85x85mm
Motor Power	2.2kw	2.2kw	3kw
Air pump power	3kw	3kw	5kw
Machine weight	1380kg	1800kg	2600kg
Machine dimension	3100X920X1180mm	3600X920X1150	4800X1200X1300mm

## Printgraph Fully Automatic Multi-Functional Envelope Flap tape Gumming & Forming Machine

### Features

The *Printgraph508, 508A* Based on keeping Type 398's availability for either Chinese or Western envelopes, the new generation of multi-functional envelope forming machine is provided with an additional function: envelope flap tape gumming for such products as Western-Style, card envelopes. Many of its structures adopt the foreign advanced technology. Its gluing system can stop gluing automatically when the machine is short of paper during running: its paper cutting system can adjust the paper length freely during running: also it's provided with a finished product counter and an automatic rotary delivery unit. It's featured by stable performance as well as fast and accurate debugging during mass production.

Model	<i>Printgraph-508</i>	<i>Printgraph-508A</i>
Applicable sheet gsm	70-150gsm	70-150gsm
Working Speed	3000-10000pcs/h	3000-9000pcs/h
Maximum size of finished product	230X160mm	324X229mm
Minimum size of finished product	85x85mm	100x100mm
Total Machine Power	7.2kw	8kw
Machine weight	2600kg	3000kg
Machine dimension	5800X970X1250mm	6600X1200X1300mm

## Printgraph Fully Automatic Envelope Window Patching Machine

### Features

The *Printgraph-385, 395* machine is mainly used for film sticking of the ground paper of windowing envelopes, VCD and non-standard specifications. The knife holder for film sticking adopts the advanced foreign technology with precise and stable die cutting. The air-suction bottom feeding system ensuring the automatic feeding of non-stop operation of the equipment, stable and reliable air separator with accurate positioning of the pin removal, rotary automatic sizing unit ensuring the uniform glue spread; adopting the automatic gear shifting to adjust the length of the film and high-speed and accurate automatic film sticking unit, easy for operation, stable and reliable during the production. It is a kind of leading domestic equipment special for film sticking of windowing ground paper at present.

Model	<i>Printgraph-385</i>	<i>Printgraph-395</i>
Applicable sheet gsm	70-150gsm	70-150gsm
Working Speed	3000-10000pcs/h	3000-9000pcs/h
Maximum size of finished product	230X160mm	324X229mm
Minimum size of finished product	85x85mm	100x100mm
Total Machine Power	7.2kw	8kw
Machine weight	2600kg	3000kg
Machine dimension	5800X970X1250mm	6600X1200X1300mm
